

Civil Engineering

Vectors, Matrices and Data Analysis

Revision Booklet

Use these questions for CAT preparation, class discussion and summative revision.

Formula Recall

1. State where the formula below can be used and create one example.

$$\mathbf{R} = \mathbf{A} + \mathbf{B}$$

2. State where the formula below can be used and create one example.

$$A_x = A \cos \theta$$

3. State where the formula below can be used and create one example.

$$A_y = A \sin \theta$$

4. State where the formula below can be used and create one example.

$$\mathbf{AX} = \mathbf{B}$$

5. State where the formula below can be used and create one example.

$$\det(\mathbf{A}) = ad - bc$$

6. State where the formula below can be used and create one example.

$$s = \sqrt{[\sum(x - \bar{x})^2 / (n - 1)]}$$

Structured Revision Questions

1. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
2. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
3. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
4. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
5. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
6. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
7. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
8. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
9. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
10. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
11. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
12. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
13. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
14. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
15. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
16. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
17. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
18. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
19. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
20. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.

21. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
22. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
23. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
24. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
25. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
26. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
27. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
28. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
29. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
30. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
31. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
32. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
33. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
34. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
35. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
36. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
37. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
38. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
39. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
40. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.

41. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
42. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
43. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
44. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
45. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
46. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
47. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
48. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
49. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
50. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
51. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
52. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
53. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
54. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
55. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
56. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
57. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
58. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
59. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
60. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.

61. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
62. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
63. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
64. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
65. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
66. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
67. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
68. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
69. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
70. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
71. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
72. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
73. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
74. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
75. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.
76. A workplace task involves survey displacement. Select the correct mathematical method, solve the problem and write a brief interpretation.
77. A workplace task involves matrix solution of equations. Select the correct mathematical method, solve the problem and write a brief interpretation.
78. A workplace task involves concrete test data. Select the correct mathematical method, solve the problem and write a brief interpretation.
79. A workplace task involves quality-control records. Select the correct mathematical method, solve the problem and write a brief interpretation.
80. A workplace task involves forces in members. Select the correct mathematical method, solve the problem and write a brief interpretation.

References and Further Reading

These notes are original learning materials prepared for Mr Mwirigi Mathematics Training Hub. They are academically informed by standard engineering mathematics texts and the local TVET curriculum framework. No textbook pages or worked examples have been copied.
